New Pipeline

A screenshot of the Jenkins web interface. The background shows a table with columns for 'Name', 'Buildable', 'Last Build', and 'Last Success'. The 'Name' column contains entries like 'hudson', 'hudson-slave', 'hudson-slave2', 'hudson-slave3', 'hudson-slave4', 'hudson-slave5', and 'hudson-slave6'. The 'Buildable' column has checkboxes, some of which are checked. The 'Last Build' and 'Last Success' columns contain links to build logs. Overlaid on this is a white modal dialog box with a shadow. Inside the dialog, there is a progress indicator with three circles: the first is green with a checkmark, the second is blue with a target symbol, and the third is gray. Below this, the text reads 'Welcome to Jenkins' and 'It's time to create your first Pipeline.' At the bottom of the dialog is a blue button with the text 'Create a new Pipeline'.
