

A Minimal Pipeline Script

```
pipeline
{
    agent any

    stages
    {
        stage ( 'Greeting' )
        {
            steps
            {
                echo 'Hello CodeMash!'
            }
        }
    }
}
```

A green callout box with a rounded rectangular body and a long, thin triangular pointer extending to the right. The text is centered within the rounded body.

**Indicates
declarative
pipeline**

A green speech bubble with a white shadow, pointing to the left. The text inside is white and bold.

**Specifies where the
pipeline will
execute**

**The “work” of the
pipeline**

A green speech bubble with a white shadow, pointing to the left. The text is centered inside the bubble.

**Defines a cohesive
chunk of work**

**The sequence of
steps for the stage**

An individual step

A Minimal Pipeline Script

Indicates
declarative
pipeline

```
pipeline  
{
```

Specifies where the
pipeline will
execute

```
  agent any
```

The “work” of the
pipeline

```
  stages  
  {
```

Defines a cohesive
chunk of work

```
    stage('Greeting')  
    {
```

The sequence of
steps for the stage

```
      steps  
      {
```

```
        echo 'Hello CodeMash!'
```

An individual step

```
      }
```

```
    }
```

```
  }
```

```
}
```
